

# Sampling Equipment

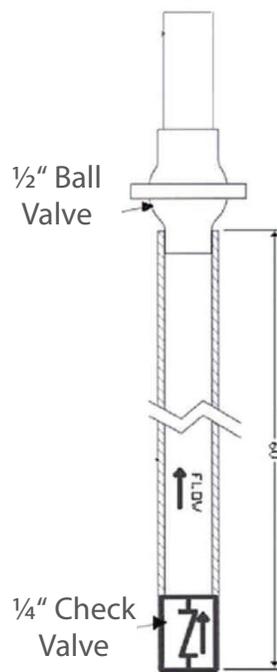

Draw Product Sample Safety and Effectively With Our Low-Maintenance, User-Friendly Sampling Devices

Part Number: HSSD1X14PV1

**Sample Pump:** Allows for a spill-free sample to be taken at the product line without the need to open the top of container system. The hand operated plunger allows for a spill free transfer from tank to sample bottle. Constructed of PVC, this user-friendly device can also be mounted unto any of our parallel instrument tees for sample draw applications.

**Developed for sampling aggressive liquids, such as acids and chlor-alkalis, our corrosion resistant equipment makes acquiring samples easy.**

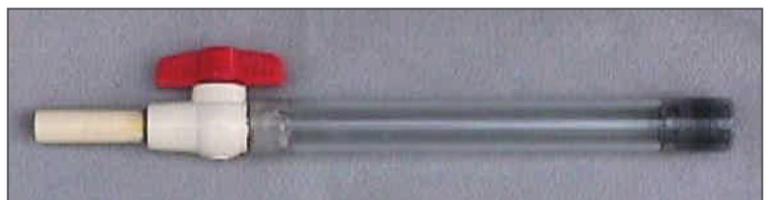

Actual length of sample tube is five feet.

**Sample Stick:** Used for retrieving product sample, our user-friendly sample stick also has the ability to transport withdrawn sample. It is constructed of clear PVC, corrosion resistant, lightweight, and low maintenance. The sample Stick utilizes a ball valve and one way flow check valve.

**Pictured:** Mini - demo version of HS34STK
