

## THE AUTOMATIC MANWAY COVER COVER FOR DRY-BULK TRAILERS

The Automatic Manway Cover is the result of modern design technology, a thorough, demanding testing regimen, and the desire of Salco Products and RMC Engineering to provide the dry-bulk transportation industry with a rugged, reliable, remotely operated manway cover. With hundreds of lids currently in service to many existing customers, the lid has proven itself in this technologically demanding industry.

### THE AUTOMATIC MANWAY COVER

- Can be installed on new or existing equipment.
- No welding required; easy to mount on any dry-bulk trailer.
- Seals directly to the ring of the trailer using a standard cover and gasket.
- Seals with a standard gasket; when necessary, the gasket is easy to replace.
- Aluminum and steel construction; entire assembly weighs less than 100 lbs.
- Can be operated from the ground or from the cab.
