

## Seals & Locking Devices

Salco has seals that meet BNSF Requirement

**A broad line of seals and locking devices for a wide variety of security requirements. Salco can supply the 1/8" cable seals BNSF now requires to be applied to its cars.**

**Rule Governing Barrier Seal Application: Issued October 6, 2003; effective January 1, 2004 - Item 2250C**

The shipper is responsible to protect the safety and integrity of its lading, including but not limited to, the application of barrier seals to railroad cars to prevent unauthorized access to its lading. A minimally-accepted barrier seal will be composed of braided steel strands (high tensile strength steel cable) totaling one-eighth (1/8) inch in diameter.

With everything from rugged polypropylene or nylon indicative seals to hardened alloy-steel barrier seals, Tyden Brooks has a solution for any level of security you might need.

**Salco is an authorized distributor of Tyden Brooks Company seals and locking devices**

High Security Plastic And Cable-Type Barrier Seals
