

## Manway Nozzle Gasket

### Improved Design Helps Combat **NAR's!**

- Independently tested and proven to provide greater overall compression as well as a more uniform seal about the manway nozzle.\*
- Available in 18", 20", and 24" sizes.
- Available in Viton, EPDM, FDA Nitrile, Butyl, and Polysulfide.
- Can be used in place of manway cover gaskets.
- Easy, glue-free installation allows for simple cleaning or replacement.
- Long inner leg secures to the manway nozzle, holding the gasket in place.
- Securement tabs provide a means to secure gasket to manway using cable.

\*For complete gasket testing documentation, including FEA results, please contact a Salco Products Representative.
