

ORALITE® Conspicuity Material

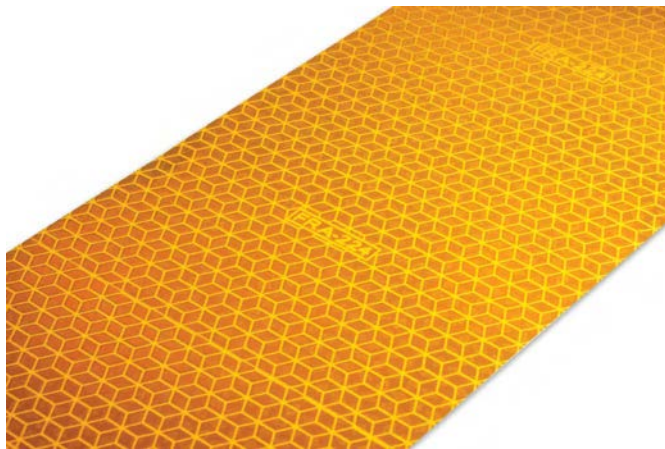

Salco offers the rail industry ORALITE® conspicuity material, a high-visibility reflective tape that can greatly improve visibility and safety at night, in bad weather, and in poorly lit environments. ORALITE® conspicuity material is unmatched for recognition and safety.

- Ultra-thin construction with high-strength adhesive, extremely durable, impact and crack resistant.
- Easily adheres to flat and curved surfaces.
- Single ply - .008 thin; no open-cell construction.
- Reflects light back to the source; retains reflective ability even when wet.
- Meets all D.O.T. specs.

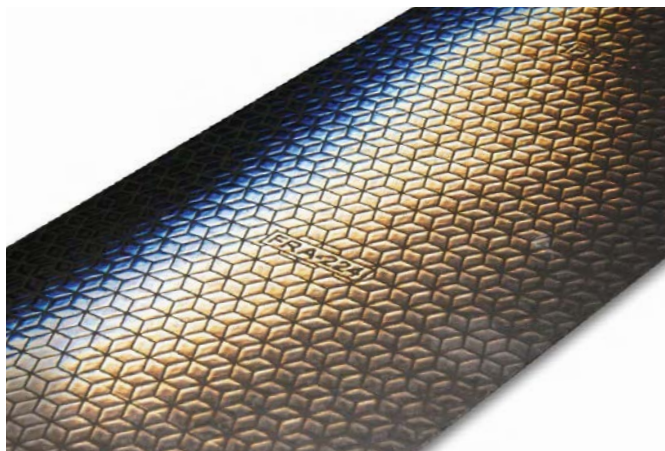

ORALITE® Microprism Construction

Cube-corner microprism retro-reflective elements are integrally bonded to a flexible, weather-resistant UV-stabilized polymeric film.

Available in yellow and white, and can be ordered in 150ft. Kiss-cut rolls or pre-cut 18" and 36" strips.

Part Number: **R4X150BY**

Part Number: **R4X150BW**

10-year warranty, including high-pressure washing and mechanical washing.

Salco is an authorized representative of the ORALITE® Corporation's reflective products for rail cars.
