

Outlet Gate Pan Gaskets

HOPPER CAR

36 Bolt Hole Gate Gasket

Part Number: GG35

Developed as a solution to customers' contamination, discoloration, and inadequate seal problems, field testing has proven Salco's Outlet Gate Pan Gasket superior in tensile strength and weatherability.

FEATURES & BENEFITS

- Provides an inside edge consistent with the gate and the car flange
- Made from a specially formulated elastomeric vinyl comprised of food-grade raw materials
- Has 100% weld penetration, resulting in superior strength in the mitered corners of the gasket
- Easy to install and replace. (mounting bolt kits available)
- Accommodates all gate manufacturers' bolting patterns
- In Plastic Pellet service, prevents pellet entrapment

A COMPREHENSIVE SELECTION

Salco Products offers a comprehensive selection of outlet gate pan gaskets designed to fit a wide range of freight railcar outlet gate manufacturers. Whether customers need gaskets for ACF, YSD, Keystone, Thrall/Edsco, Ellcon National, Youngstown/Fabco, Trinity, Pullman, Miner, Procor/Union Tank, Adipic Acid, or 30x30 configurations, Salco has you covered.
