

# Security Ring

TANK CAR

**Security Ring**

Part Number: MB20PR02CSNL

Salco's Security Ring for pressure tank cars is designed to increase safety and security by preventing access to the top fittings housing. It also serves as a stop for the housing cover.

## FEATURES & BENEFITS

- Secures port holes; designed for increased security and safety.
- Eliminates tampering from exterior of dome.
- Indicator tab prevents cover from closing while ring is in the open position.
- Fits multiple car-builder designs.
- Lightweight and easy to maneuver.
